

Pacato Farbic Panel

Pacato acoustical panels are the perfect solution for many reverberant noise problems. Adding acoustical panels to the room could reduce reflected sound thereby dampening the echo and reverberation in a properly treated space, creating a terrific acoustic environment.

Colorful Decorative Fabric Surface Panel has been proved to have excellent absorption properties, which is widely used in theater, conference room and hotel..

Advantage:

1. Elegant, aesthetically pleasing fabric finishes and coverings ;
2. Panel designs for continuous or intermittent treatment
3. Custom sizes and geometric shapes available
4. Fabrics to match standard open office partitions
5. Easy to install and maintain
6. Reduces reverberation time
7. Meets class A fire rating
8. Integration with wall mounted obstructions
9. Barrier backed styles with high STC ratings

Application

Audio/video/recording studios and control rooms;
 Offices, conference rooms, lobbies;
 Classrooms and meeting halls;
