

Pacato Acoustic Foam

Pacato Acoustic Foam are decorative, high performance, versatile, acoustical absorbers. Pacato foam are available in a wedge configuration.

Pacato Acoustic Foam are excellent sound absorbers and achieve more sound reduction than flat materials because of the wedge shape contoured acoustical surface.

Pacato Foam are flame retardant polyester polyurethane foam. Due to the great height to base ratio, Pacato Foam have up to six times the absorbing surface exposed to the sound than a flat sheet.

Typical size 300mm x 300mm x 50mm

Advantage:

1. Elegant, aesthetically pleasing surface;
2. Foam designs for continuous or intermittent treatment
3. Custom sizes and geometric shapes available
4. Easy to installation
5. Reduces reverberation time
7. Economic
8. Keep warm, heat insulation

Application

Audio/video/recording studios and control rooms;
Classrooms and meeting halls;
Entertainment and performing arts centers;
Theaters, movie cinemas and concert halls;
Churches and worship spaces;

Thickness of foam (mm)	Frequency (Hz)						NRC
